

# HARRIS COUNTY, GEORGIA

## Request for Proposal Computer Aided Dispatch System

### ADDENDUM #2

The following changes, clarifications, and/or additions are made to the Request for Proposal for Harris County's Computer Aided Dispatch System.

**1. The date for issuing the final addendum has changed.**

The final addendum will be issued on Monday, August 6, 2017.

**2. Referencing proposer must have Alarms Interface; what alarm system is being used?**

This is for future purposes.

**3. Referencing GIS; there is no explanation of this.**

GIS Integration.

**4. Referencing proposer must have Scheduling Programs and Staffing Interface; are you wanting a program or interface to existing?**

The County desires a program.

**5. Referencing proposer must have Records Management System (RMS) Law and Fire Interface; what fire RMS do you currently use?**

This is for future purposes. The county currently has no RMS at the 9-1-1.

**6. Referencing 5.6 Data Conversion: Would the county consider providing a sample of the data?**

Yes. The County will issue a CAD report later this week.

**7. How many monitors are required on the four workstations?**

They will have 4 monitors per position. 2 for telephony, 1 for MAP, and 1 for CAD.

**8. Is it the counties intent to have a program to maintain 911 addressing/mapping?**

Yes. The County is looking to hire someone to maintain the GIS mapping going forward.
